Data Appending Services

Email Append: (Our email appends are guaranteed 100%)

The email append cost is based on the number of records we are able to append emails to, not the number of records you provide.

- For an accurate quote, we need to know the total number of records you have that need emails appended and a sample of 100+ records for an append test.

- The append test is free and will be used to get an accurate cost estimate for appending your whole list.

Email Append Pricing

Records	Price per Append	Total Cost
5,000	$0.50	$2,500
10,000	$0.40	$4,000
